

Versions with Markings to Show Changes Made

IN THE SPECIFICATION

Please replace the following paragraphs with the following rewritten paragraphs. The changes are shown explicitly in the attached "Version with Markings to Show Changes Made."

Please replace the paragraph beginning on page 18 at line 29 with the following rewritten paragraph:

Figure 3 indicates the entire nucleotide sequence (SEQ ID NO: 1) of the fragment inserted at the Sal I-Not I site of pZL-Endo which comprises the full length sequence of a novel endo- β -N- acetylglucosaminidase gene.

Figure 5 shows the deduced amino acid sequence from novel endo- β -N-acetylglucosaminidase gene and the nucleotide sequence of a DNA (SEQ ID NO: 2) encoding said amino acid (SEQ ID NO: 3) sequence.

Please replace the paragraph beginning on page 19 at line 2 and 5 with the following rewritten paragraphs respectively:

Figure 6 shows the deduced amino acid sequence from novel endo- β -N-acetylglucosaminidase gene and the nucleotide sequence of a DNA (SEQ ID NO: 2) encoding said amino acid sequence (SEQ ID NO: 3). (Continuation of Figure 5)

Figure 7 shows the deduced amino acid sequence from novel endo- β -N-acetylglucosaminidase gene and the nucleotide sequence of a DNA (SEQ ID NO: 2) encoding said amino acid sequence (SEQ ID NO: 3). (Continuation of Figure 6)
